1. Introduction

The Sustainable Development Goals (SDGs) are a set of seventeen ambitious goals that the United Nations established in an effort of a sustainable and equitable future. The fifteenth goal "Life on Land," is a foundational goal in this conceptual structure. It acknowledges the terrestrial environmental issues of our world, protecting terrestrial ecosystems while preserving the existence of life on land and the urgent need for their protection. Preserving and restoring our terrestrial ecosystems is more important than ever, Numerous species face extinction as a result of habitat loss and fragmentation, disrupting the delicate balance of these ecosystems. The process of turning agricultural land into wastelands, or desertification, further reduces biodiversity and destroys the lives of millions of people who depend on these regions. All of these issues are international in scope and requires global attention.

All of the sustainable development goals from promoting environmentally conscious agricultural practices to preserving forests rich in biodiversity, represent a shared commitment to protecting life on land for both the present and the future.

This report focuses on our website for SDG 15: Life on Land. This online platform uses the power of information technology to its advantage to bring the critical situation of our terrestrial ecosystems to light. It also gives individuals and organizations the information and resources they require to better understand the problems and solutions associated with life on land by offering educational content. Additionally, the website promotes partnership by bringing consumers from different sectors together and offering a forum for knowledge sharing. Its ultimate goal is to motivate people to take action, whether it is through governments implementing sustainable development laws or mindful consumer choices made by individuals. Together, we can guarantee that our terrestrial ecosystems thrive in the future, preserving the planet's health for both the current and future generations.

1.2 Website topic/theme

15th United Nations Sustainable Development Goal: Life on Land

1.3 Contributions

Group Coursework Meetings (minimum 5 meetings, e.g., one per week)			
1	Date & Time	2024.02.24	
	Objective:	Selecting student roles	
	Attended:	yes	
	Your Contribution:	Selected student 1 as my role	
2	Date & Time:	2024.03.02	
	Objective:	Selecting the SDG topic for the website	
	Attended:	Yes	
	Your Contribution:	Chose life on land as the topic	
3	Date & Time	2024.03.04	
	Objective:	Selecting the colour palette for the website	
	Attended:	yes	
	Your Contribution:	Suggested colours for the website	
4	Date & Time	2024.03.23	
	Objective:	Discussing the progress of the website	
	Attended:	Yes	
	Your Contribution:	Shared the completed splash page with the others	
5	Date & Time	2024.03.30	
	Objective:	Discuss the progress of the website	
	Attended:	Yes	
	Your Contribution:	Discussed the errors of the website	
6	Date & Time	2024.04.01	
	Objective:	Finalize the webpages	
	Attended:	Yes	
	Your Contribution:	Finalized the webpage designs	

Table 1 A system for recording group meetings, attendance, output, actions

1 Technical Discussion

1.1 Implementation

Student 1 tasks:

2.1 Splash Screen Implementation:

I've added the following code to the splash page so that the material that appears in the browser uses the "EB Garamond" font. Google Fonts(<https://fonts.googleapis.com/>) was the source of the code:

```
<link rel="preload" href="https://fonts.googleapis.com">
<link rel="preload" href="https://fonts.gstatic.com" crossorigin>
<link href="https://fonts.googleapis.com/css2?family=EB+Garamond:ital,wght@0,400..800;1,400..800&family=Koh+Santepheap:wght@100;300;400;700;900&family=Lora:ital,wght@0,400..700;1,400..700&family=Merriweather:ital,wght@0,300;0,400;0,700;0,900;1,300;1,400;1,700;1,900&family=Nunito:ital,wght@0,200..1000;1,200..1000&family=PT+Serif:ital,wght@0,400;0,700;1,400;1,700&family=Roboto:ital,wght@0,100;0,300;0,400;0,500;0,700;0,900;1,100;1,300;1,400;1,500;1,700;1,"
```

```
900&family=Tinos:ital,wght@0,400;0,700;1,400;1,700&display=swap"
rel="stylesheet">
```

The images were taken from : <https://www.pinterest.com>

They were edited from: <https://app.photoroom.com/>

The splash screen prominently features the website title: Life on Land and its mission along with the names of our group members. It functions as a splash screen, providing an initial introduction to the website. This splash page lasts for 4 seconds and redirects the page to the home page of the website. A <meta> tag is used in the head of the splash.html to perform this task. IIT week 3 lecture notes were referred for this content.

```
<meta http-equiv="refresh" content="4; url=shop.html">
```

For the splash page structure and animations the following you tube video was referred:

<https://www.youtube.com/watch?v=2ak37WrbSDg>

The following YouTube video was referenced to make the CSS animation bubbles background of the splash page:

<https://www.youtube.com/watch?v=wuUSVEcK-kM>

CSS animations have been added to different parts of the image in the splash page to give it a blinking effect

```
.cat-img {
    position: absolute;
    bottom: 0;
    left: 0;
    width: 500px; /* Adjust size as needed */
    height: auto;
    animation: catPopUp 1s forwards;
}
@keyframes catPopUp {
    0% {
        bottom: -200px; /* Start position: below the screen */
    }
    100% {
        bottom: 0; /* End position: at the bottom of the screen */
        opacity: 1; /* Fully visible */
    }
}
/* Keyframe animation for blinking eyes */
@keyframes blink {
    0%, 100% { transform: scaleY(1); }
    50% { transform: scaleY(0); }
}
@keyframes catPopDown {
    0% {
        bottom: 0; /* Start position: below the screen */
    }
    100% {
        bottom: -200px; /* End position: at the bottom of the screen */
        opacity: 1; /* Fully visible */
    }
}
```

2.1 Shop Implementation:

Separate HTML files are used to create the shop page. Shop pages function in three separate sections in real-world applications: the shop page, which contains all the products and information about each product; the cart page, which allows users to add products to a list that they need to buy; and the checkout page, which allows users to pay and complete the purchase. These three section implementations are further discussed below.

The icons for the corresponding pages were taken from the links below:

<https://flowbite.com/icons/>

<https://fontawesome.com/>

Shop page:

The products are all conveniently arranged in a grid layout in the shop page. Clicking on any product takes you to a separate webpage with all its detailed information. This task is performed by redirecting the page using the below code snippet:

```
<div class="pro " onclick="window.location.href='tote1.html';">
    
    <div class="des">
        <span>Organic Cotton</span>
        <h5> Mother Nature Tote bag</h5>
        <div class="star">
            <i class="fas fa-star"></i>
            <i class="fas fa-star"></i>
            <i class="fas fa-star"></i>
            <i class="fas fa-star"></i>
            <i class="fas fa-star"></i>
        </div>
        <h4>$10.88</h4>
    </div>
    <div class="cart">

        <svg aria-hidden="true" xmlns="http://www.w3.org/2000/svg"
width="24" height="24" fill="none" viewBox="0 0 24 24">
            <path stroke="currentColor" stroke-linecap="round" stroke-
linejoin="round" stroke-width="2" d="M5 4h1.5L9 16m0 0h8m-8 0a2 2 0 1 0 0 4
2 2 0 0 0 0-4Zm8 0a2 2 0 1 0 0 4 2 2 0 0 0 0-4Zm-8.5-3h9.25L19 7H7.312"/>
        </svg>
    </div>
</div>
```

The shop page consists of a banner at the very top of the page for a user friendly interface. The code for the banner is as follows:

```
<section id="page-header">
    <h2>Protect Our Planet, One Purchase at a Time</h2>
    <h2>Shop for a Sustainable Future</h2>
    <p>#Help Us Reach Our Goal! Every Purchase Contributes to SDG 15 </p>
</section>
```

Product details page:

The page with the specific product's data is displayed when the user clicks on one of the products. This page lists every product name, price, and more detail about the item. For further information, the viewer can also examine several product photos. This is accomplished by placing an image slider beneath the product picture.

```
<div class="single-pro-image">
    

    <div class="small-img-group">
        <div class="small-img-col">
            
            <h6>Front</h6>
        </div>
        <div class="small-img-col">
            
            <h6>back</h6>
        </div>
    </div>
</div>
```

JavaScript was used to make the image slider work:

```
document.addEventListener("DOMContentLoaded", function() {
    var MainImg = document.getElementById("MainImg");
    var smallImg = document.getElementsByClassName("small-image");

    for (var i = 0; i < smallImg.length; i++) {
        smallImg[i].addEventListener("click", function() {
            MainImg.src = this.src;
        });
    }
});
```

Along with selecting a desired size and colour, the user can also add items to their carts and save them. This task is performed with the use of the 'add to cart' button:

```
<div class="single-pro-details">
    <h3>Organic Cotton</h3>
    <h4>Mother Nature Tote bag</h4>
    <h2>$10.88</h2>
    <div class="options">
        <select>
            <option>Select Size</option>
            <option>Medium</option>
            <option>Large</option>
        </select>
        <input type="number" value="1">
    </div>
    <button>Add To Cart</button>
</div>
```

Cart page:

When the user double clicks on the shop icon on the top right side of the website, the cart slider will appear. This slider includes the details of the products that were bought by the user.

I had some issues when creating the slider as it was difficult to make the cart appear on top of the other products in the shop page. To fix this issue, I changed the positioning of the cart to absolute.

Another major issue that occurred was dynamically adding the products selected by the users to their cart.

The following you tube videos as well as lecture notes were referred within 3 whole days to fix this error:

<https://www.youtube.com/watch?v=2SbhIPiC5SY&t=1106s>
<https://www.youtube.com/watch?v=gXWohFYrl0M&t=601s>
<https://www.youtube.com/watch?v=Smtg4zFvij0&list=PLqm86YkewF6S45smPYeNv01aFFKWZSgYD&index=4&t=3389s>
<https://www.youtube.com/watch?v=oT0Xy8wU8iY&t=1436s>
<https://www.youtube.com/watch?v=bCTd1eRX7lw&t=90s>

I have used Java script within the website to save the products that the user enters, check whether the product exists in the cart or not, add the products to the cart and to allow the user to checkout once the order is placed. The code used for this task is :

```
let products=null;
//get data from JSON
fetch('product.json')
.then(response=>response.json())
.then(data=>{
    products=data;
    addDataToHTML();
})

function addDataToHTML () {

    let listProductHTML=document.querySelector('.listProduct');
    listProductHTML.innerHTML='';

    if(products!=null) {
        products.forEach(product=>{
            let newProduct=document.createElement('div');
            newProduct.classList.add('item');
            newProduct.innerHTML=
`
<h2>${product.name}</h2>
<div class="price">${product.price}</div>
<button onclick="addCart(${product.id})">Add to Cart</button>`;
            listProductHTML.appendChild(newProduct);
        });
    }
}

let listCart=[];
function checkCart(){
    var cookieValue = document.cookie
    .split('; ')
    .find(row=>row.startsWith('listCart='));
    if(cookieValue){
        listCart=JSON.parse(cookieValue.split('=')[1]);
    }
}
checkCart();
function addCart($idProduct){
    let productCopy=JSON.parse(JSON.stringify(products));
    if(!listCart[$idProduct]){
        listCart[$idProduct]=productCopy;
    } else {
        listCart[$idProduct].quantity++;
    }
    document.cookie=`listCart=${listCart}`;
}
```

```

let dataProduct = productCopy.filter(
    product=> product.id == $idProduct
) [0];

listCart[$idProduct] = dataProduct;
listCart[$idProduct].quantity = 1;
}else{

    listCart[$idProduct].quantity++;
}
let timeSave="expires=Thu, 31 Dec 2025 23:59:59 UTC";

document.cookie="listCart="+JSON.stringify(listCart)+"."+timeSave+";path=/";
";
addCartToHTML();
}
addCartToHTML();
function addCartToHTML(){
//clear data default
let listCartHTML=document.querySelector('.listCart');
listCart.innerHTML='';

let totalHTML = document.querySelector('.totalQuantity');
let totalQuantity=0;

if (listCart){
    listCart.forEach(product=>{
        if(product){
            let newCart=document.createElement('div');
            newCart.classList.add('item');
            newCart.innerHTML =
`
<div class="content">
    <div class="name">
        ${product.name}
    </div>
    <div class="price">
        $$ ${product.price}
    </div>
    <div class="quantity">
        <button>-</button>
        <span class ="value">3</span>
        ${product.quantity}
        <button>+</button>
    </div>`;
            listCartHTML.appendChild(newCart);
        }
    } )
}
}

```

2.3 Additional Content Page Implementation:

This blog page dives deeper into the world of what you're buying. It features five sections, which focuses on how recycled materials are incorporated into jewelry designs, the importance of using biodegradable products into everyday life, information about the indigenous tribes that craft the ethically sourced products on the website, tips on how to increase your usage of sustainable

products and how the purchases made by the users help donate to worthy causes. Users can click on the links below each section which redirects them to external websites to read more about these topics.

```
<div class="blog-details">
    <h4>From Trash to Treasure: The Unexpected Journey of Recycled Jewellery</h4>
    <p>Recycled jewelry exemplifies the transformative power of creativity and sustainability. Designers are using their creativity to transform trash into treasure, crafting pieces that are not only beautiful but also promote sustainability.
        Click on the link below to read more.</p>
        <a href="https://inspiremakers.com/what-is-recycled-plastic-jewellery/">Continue reading</a>
</div>
```

The external website links that are on the blog page are as follows:

<https://inspiremakers.com/what-is-recycled-plastic-jewellery/>
<https://www.sciencedirect.com/science/article/pii/S2666086522000157>
<https://mochila.au/blogs/education/celebrating-indigenous-artisans-the-hands-behind-the-craft>
<https://www.outdoors.org/resources/amc-outdoors/conservation-and-climate/go-green-10-tips-for-a-more-sustainable-lifestyle/>
<https://www.nwf.org/Trees-for-Wildlife/Wildlife-Benefits>

An external CSS file named blogcss.css is used to style this page

2.4 Page Editor Implementation:

The webpages that I created are outlined entirely in the page editor, along with their corresponding links.

To do this navigation within the html pages and anchor tag is used and the link of the html page is given to the 'href' attribute.

```
<h3>Splash Page</h3>
<ul>
    <li> Created a splash page for the website</li>
    <li> Used CSS animations to implement interactive elements</li>
    <a href="splash.html">Link to Splash page</a>
</ul>
```

An external CSS file named editorcss.css is used to style this page

2.5 Adapted Navigation Bar Implementation:

The website uses a single navigation bar that varies slightly depending on the page that is being viewed at any one time. The identical header and footer code were copied into each HTML file in order to complete this assignment.

```
<section>
    <header>
        <a href="home.html"></a>
        <ul class="navbar">
            <li><a href="home.html" target="_blank" >HOME</a></li>
            <li><a href="Gallery.html" target="_blank">GALLERY</a></li>
```

```

        <li><a href="shop.html" >SHOP</a></li>
        <li><a href="feedback.html" target="_blank">FEEDBACK</a></li>
        <li><a href="userprofile.html"
target=_blank>USER &nbsp;&nbsp;PROFILE</a></li>
        <li><a href="aboutus.html"
target=_blank">ABOUT &nbsp;&nbsp;US</a></li>
        <li><a href="sitemap.html"
target=_blank">SITE &nbsp;&nbsp;MAP</a></li>
    </ul>
</header>
</section>

```

Additionally, the website has a footer that directs visitors to the editor sites for every creator. The same anchor tags are used as before to link the pages. The code snippet for this is as follows:

```

<footer class="footer">
    <ul class="members">
        <li><a href="editor-
lineli.html">Lineli &nbsp;&nbsp;Wijesinghe</a></li>
        <li><a href="#" target=_blank">Ranindi &nbsp;&nbsp;Fernando</a></li>
        <li><a href="#" target=_blank">Hasindie &nbsp;&nbsp;Dissanayake</a></li>
        <li><a href="#" target=_blank">Tharushi &nbsp;&nbsp;Landewatthe</a></li>
    </ul>
</footer>

```

2.6 Additional CSS Implementation:

The shop page, cart page, checkout page, blog page, and editor page have all been given their own CSS style sheets. It is more convenient to create separate CSS files for each html file rather than typing the CSS code within a `<style>` tag or inline, as the latter is not practical when working on huge html files. The `<link>` tag is used to link the style sheets to the html file to which they belong.

```
<link rel="stylesheet" href="shopstyle.css">
```

1.2 Task completion checklist

This website has been successfully completed in accordance with the outlined instructions and established deadlines, I have designed and implemented all the core functionalities as specified. This includes the creation of a user-friendly shop interface, where customers can browse and select products. Visitors are greeted by a visually appealing splash page that serves as the initial entry point to the website. To facilitate a seamless purchasing experience, a shopping cart system has been integrated, allowing users to add and manage their desired items. Furthermore, a secure and efficient checkout process has been established to ensure smooth transactions.

Additionally, a blog page has been created to provide the users with more information about the products that are being purchased and about how each of their purchase helps donate. This fosters brand awareness and allows you to establish yourself as a thought leader in your industry. A separate editors' page has also been implemented.

In conclusion, all the requirements outlined in the project brief has been implemented. The website is now fully functional and equipped with the necessary features to support a successful launch and ongoing operations.

2 Webpage Validation Statement

The three web pages that were validated without errors are the shop page, Blog page and the Editor page. The HTML pages as well as the input fields were validated using the site :
<https://validator.w3.org>

The screenshots of the validation results are attached in Appendix C

3 Janet

In accordance with Janet regulations, none of the webpages that have been created by me contain any misleading information, offensive content, or anything defamatory. All links to external sources are documented in this report. Throughout the development process, I prioritized protecting the Janet network by adhering to its guidelines. This included careful content creation to avoid copyright issues and ensure all information is accurate and respectful. By following Janet's regulations, I strived to contribute to a safe and positive online environment for all users.

The following website was referred for this task: , [Janet Policies and Legal Requirements](#).

4 Self-reflection

Self-Reflection on Completing the Coursework on UN SDG 15: Life on Land

State what you enjoyed and did not enjoy about teamwork.

Enjoyed: Each member of the team brought unique perspectives and innovative suggestions to the creation of the website. It was exciting to come up with ideas during our brainstorming session. The best part was having a sense of accomplishment once the project had been completed.

Did not enjoy: It was a challenging task to arrange for everyone to have online meetings and meetup sessions at the same time. In many instances, an issue in communication among us resulted in certain people exerting more effort on the project. While differences within the team occasionally caused unease, they also taught important lessons about conflict resolution.

State what you learnt about teamwork.

I discovered that, when it comes to working as a team, active listening and communicating clearly are both crucial, and that acknowledging one another's strengths and weaknesses goes a long way. When it comes to functioning as a team, being adaptable and flexible are also important.

State what skills you gained/learnt from undertaking the project.

The project helped me develop in numerous significant ways. It improved my researching skills, project management skills, and teamwork abilities while making sure we adhere to the deadlines provided. Through the website and report, I also improved my ability to break down complex issues, analyze information with ease, and present findings in an interesting way.

State any strengths about yourself that emerged whilst undertaking the project.

I believe I managed to bring out my creativity skills to help our team create this website. Additionally, my willingness to take initiative and support team members contributed positively to our collective efforts.

State any weaknesses about yourself that emerged whilst undertaking the project.

I could have avoided last-minute rushes by better organizing my time and schedule. Furthermore, I came to see how critical it was to voice my concerns and thoughts inside the team with more assertiveness.

State how you would do things better if you were to undertake the project again.

In future projects, I would strive to manage tasks more effectively and trust in the capabilities of my team members. I would also actively seek feedback from team members to improve my leadership and teamwork skills.

Additional general or project specific comments:

- Checkout.html

The screenshot shows a web browser window displaying a shopping cart interface. At the top, there's a navigation bar with links like HOME, GALLERY, SHCP, FEEDBACK, USER PROFILE, ABOUT US, and SITE MAP. A shopping cart icon with '0' indicates no items. On the right, a sidebar shows a product named 'Product name: Product1'. Below the navigation, a section titled 'Featured Products' displays three tote bags. The first bag has a green illustration of a woman's face. The second bag has a pink illustration with the text 'YOU ARE TOO CUTE TO BE'. The third bag is plain white. The bottom of the page features a footer with names: Lineli Wijesinghe, Ranindi Fernando, Hasindie Dissanayake, and Tharushi Landewatthe. There are also 'Close' and 'Checkout' buttons.

The screenshot shows a web browser window displaying a checkout form. The left side shows a summary of the cart: 'Mother nature tote bag \$10.88'. The right side contains a 'Checkout' form with sections for 'Contact details' (Full Name, Phone Number, Email Address) and 'Billing address' (Address, Postcode/Zipcode, Country, City). Below the form is a 'Payment details' section. The bottom of the page features a footer with names: Lineli Wijesinghe, Ranindi Fernando, Hasindie Dissanayake, and Tharushi Landewatthe. The time at the bottom right is 4:40 AM on 4/4/2024.

- tote1.html

The screenshot shows a web browser window displaying a product detail page for a 'Mother Nature Tote bag'. The page includes a large image of the tote bag, which features a green illustration of a woman's face with long hair and a globe in her hands. The price is listed as '\$10.88'. A dropdown menu for 'Select Size' shows '1'. Below the price is a 'Add To Cart' button. A 'Product Details' section contains text about the bag being made from organic cotton and being hand-made. The bottom of the page features a footer with names: Lineli Wijesinghe, Ranindi Fernando, Hasindie Dissanayake, and Tharushi Landewatthe. The time at the bottom right is 2:42 AM on 4/4/2024.

- tote2.html

The screenshot shows a product page for a "Cow Meme Tote bag". The bag is white with a pink graphic featuring a cow and the text "YOU ARE TOO CUTE TO BE EATING DEAD ANIMALS". The page includes a "Select Size" dropdown set to "1", an "Add To Cart" button, and a "Product Details" section describing the bag as a "cotton, hand made and a stylish advocate to increase awareness and a worthy purchase for a good cause". The top navigation bar has links for HOME, GALLERY, SHCP, FEEDBACK, USER PROFILE, ABOUT US, and SITE MAP. The bottom navigation bar lists student names: Lineli Wijesinghe, Ranind Fernando, Hasindu Dissanayake, and Tharushi Landewatthe.

- tote3.html

The screenshot shows a product page for an "Organic Meme Tote bag". The bag is white with a black graphic containing the text "DON'T PANIC IT'S ORGANIC". The page includes a "Select Size" dropdown set to "1", an "Add To Cart" button, and a "Product Details" section describing the bag as a "cotton, hand made and a stylish advocate to increase awareness and a worthy purchase for a good cause". The top navigation bar has links for HOME, GALLERY, SHCP, FEEDBACK, USER PROFILE, ABOUT US, and SITE MAP. The bottom navigation bar lists student names: Lineli Wijesinghe, Ranind Fernando, Hasindu Dissanayake, and Tharushi Landewatthe.

- tote4.html

The screenshot shows a product page for a "Cat Meme Tote bag". The bag is white with a black cat graphic and the text "EATING ANIMALS IS WEIRD". The page includes a "Select Size" dropdown set to "1", an "Add To Cart" button, and a "Product Details" section describing the bag as a "cotton, hand made and a stylish advocate to increase awareness and a worthy purchase for a good cause". The top navigation bar has links for HOME, GALLERY, SHCP, FEEDBACK, USER PROFILE, ABOUT US, and SITE MAP. The bottom navigation bar lists student names: Lineli Wijesinghe, Ranind Fernando, Hasindu Dissanayake, and Tharushi Landewatthe.

- straws.html

The screenshot shows a product page for "Bamboo Breeze Straws(5 pack)". The product is described as fully biodegradable and 100% organic, handcrafted in rural Vietnam. It features a dropdown menu for size selection (set to 1) and an "Add To Cart" button. The page includes a "Product Details" section and two images of the straws.

- pencil.html

The screenshot shows a product page for "Ecoscribe Newspaper Pencils Pack". The pencils are made from reused newsprints and are described as being made using no wood, no toxic chemicals, and no plastic. It features a dropdown menu for size selection (set to 1) and an "Add To Cart" button. The page includes a "Product Details" section and two images of the pencils.

- notebook.html

The screenshot shows a product page for "Ecoscribe Notebook(120Pg)". The notebook is made from 100% recycled paper and is described as worry-free and sustainable. It features a dropdown menu for size selection (set to 1) and an "Add To Cart" button. The page includes a "Product Details" section and two images of the notebook.

[Pick the date]

[STUDENT NAME]

- card.html

The screenshot shows a product page for a "Biodegradable Plantable Birthday Greeting Card". The card features three small potted plants and the text "make a wish and watch me grow HAPPY BIRTHDAY". The price is \$3.99. A dropdown menu for "Select Size" shows "1". A green "Add To Cart" button is visible.
